

Project Hawkeye 1 & 2

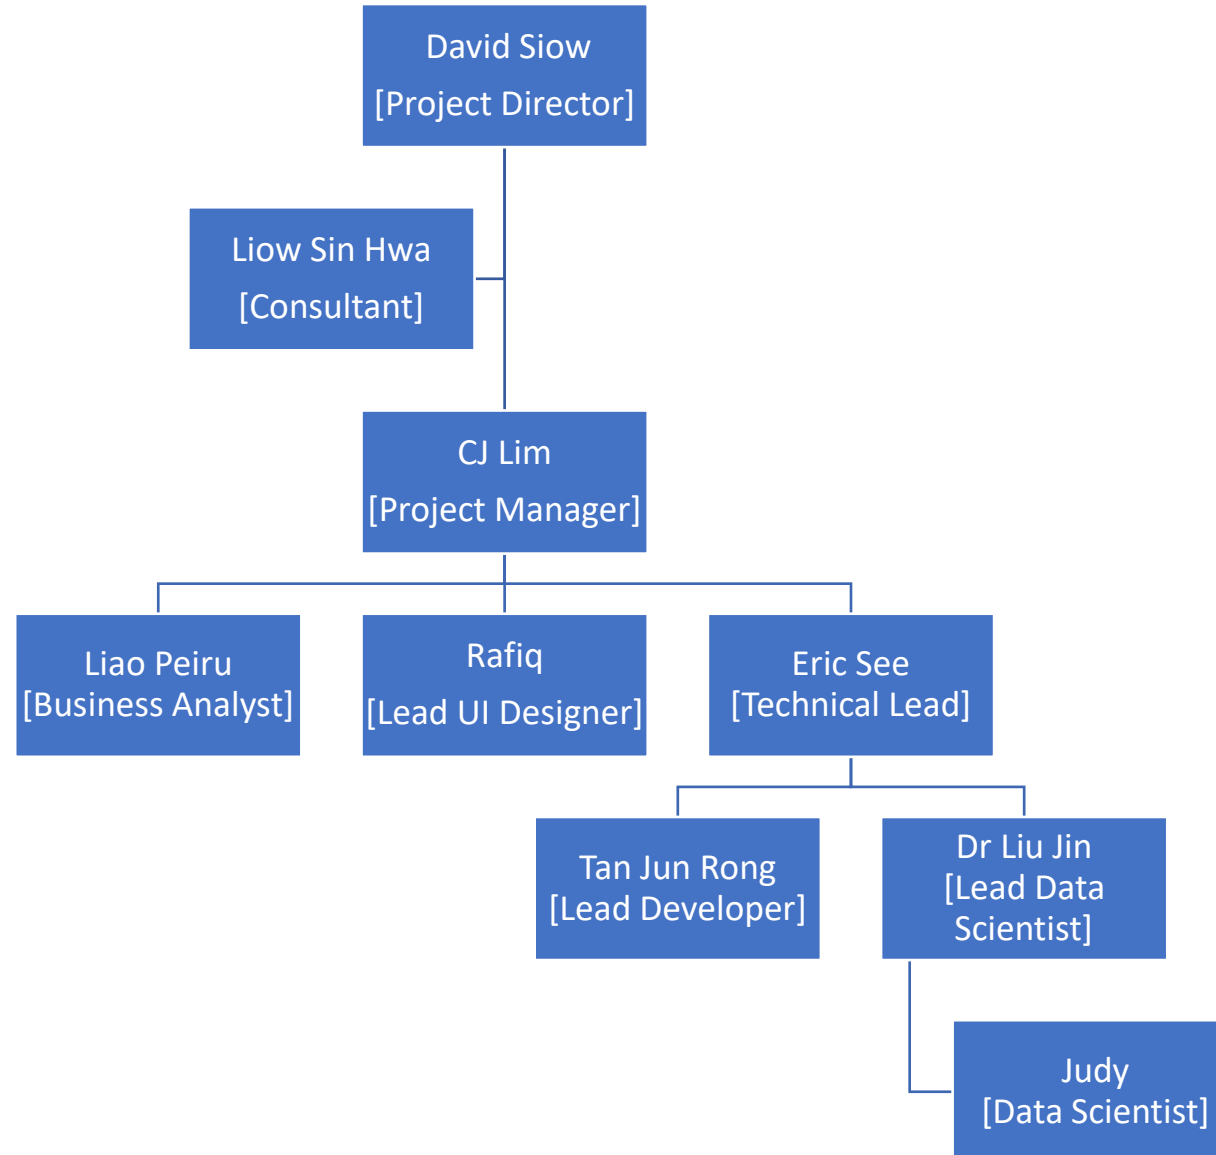

Project Kick-off Meeting (HE1 & HE2)

1st Sept 2025

Agenda

- Project Team Structure
- HE1 Milestones and Deliverables
- HE2 Milestones and Deliverables
- Project Management Plan
- Urgent / Critical Tasks

Project Team Structure

HE1 Project Milestones and Deliverables [1/3]

S/N	Milestones	Deliverables	Target Date
1	Critical Design Review (CDR)	<ul style="list-style-type: none">• Project Management Plan (PMP)• Preliminary System & Software Design<ul style="list-style-type: none">○ UX/UI Design○ Process Work flow	August 2025
2	Software Verification & Iteration #1	<ul style="list-style-type: none">• Software Requirement Specification (Preliminary version)• System Design Document (Preliminary version)	October 2025
3	Software Verification & Iteration #2	<ul style="list-style-type: none">• Software Requirement Specification (SRS)• System Design Document	Jan 2026

HE1 Project Milestones and Deliverables [2/3]

4	Delivery of DBMS and Acceptance	<ul style="list-style-type: none">• Delivery of DBMS• Deliver the Test Plan, Test Results and successfully conducted the following Acceptance Tests:<ul style="list-style-type: none">• Installation Test;• System Functional Test;• System Interface/Integration Test;• System Performance Test;<ul style="list-style-type: none">• System Load Test• Stress Test• Source Code Security Test using SAST Tool• User Acceptance Test• Conduct Pre-UAT Training;• Hardware/Software Configuration Document• System Administration/Operations Document• User Guide	October 2026
---	---------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------

HE1 Project Milestones and Deliverables [3/3]

5	Commissioning Date & Completion of Training	<ul style="list-style-type: none">• Conduct in-house training with users:<ul style="list-style-type: none">• User Training using DBMS;• User Training for Trainers;• System Installation & Configuration Training;• Training Proposal & Plan• Training materials	November 2026
6	Acceptance & Sign-off	<ul style="list-style-type: none">• Hardware Maintenance Plan• Software & Application Maintenance Plan• Source Code	March 2027
7	End Warranty		Feb 2028

HE2 Project Milestones and Deliverables [1/3]

S/N	Milestones	Deliverables	Target Date
1	Preliminary Design Review (PDR)	<ul style="list-style-type: none">• Project Management Plan (PMP)	August 2025
2	Critical Design Review (CDR)	<ul style="list-style-type: none">• Preliminary System & Software Design<ul style="list-style-type: none">○ UX/UI Design○ Process Work flow	January 2026
3	Software Verification & Iteration #1	<ul style="list-style-type: none">• Software Requirement Specification (Preliminary version)• System Design Document (Preliminary version)	April 2026
4	Software Verification & Iteration #2	<ul style="list-style-type: none">• Software Requirement Specification (SRS)• System Design Document	July 2026

HE2 Project Milestones and Deliverables [2/3]

5	Delivery & Acceptance of Link Analysis Software to STE for Integration	<ul style="list-style-type: none">• Delivery of Link Analysis• Deliver the Test Plan, Test Results and successfully conducted the following Acceptance Tests:<ul style="list-style-type: none">• Installation Test;• System Functional Test;• System Interface/Integration Test;• System Performance Test;<ul style="list-style-type: none">• System Load Test• Stress Test• Source Code Security Test using SAST Tool• User Acceptance Test• Hardware/Software Configuration Document• System Administration/Operations Document	April 2027
---	------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------

HE2 Project Milestones and Deliverables [3/3]

6	Delivery & Acceptance of Link Analysis Software	<ul style="list-style-type: none">• Conduct Pre-UAT training;• User Guide	August 2027
7	Commissioning Date & Completion of Training	<ul style="list-style-type: none">• Conduct in-house training with users:<ul style="list-style-type: none">• User Training using Link Analysis;• User Training for Trainers;• System Installation & Configuration Training;• Training Proposal & Plan• Training materials	September 2027
8	Acceptance & Sign-off	<ul style="list-style-type: none">• Hardware Maintenance Plan• Software & Application Maintenance Plan• Source Code	January 2028
9	End Warranty		January 2029

What's in Project Management Plan?

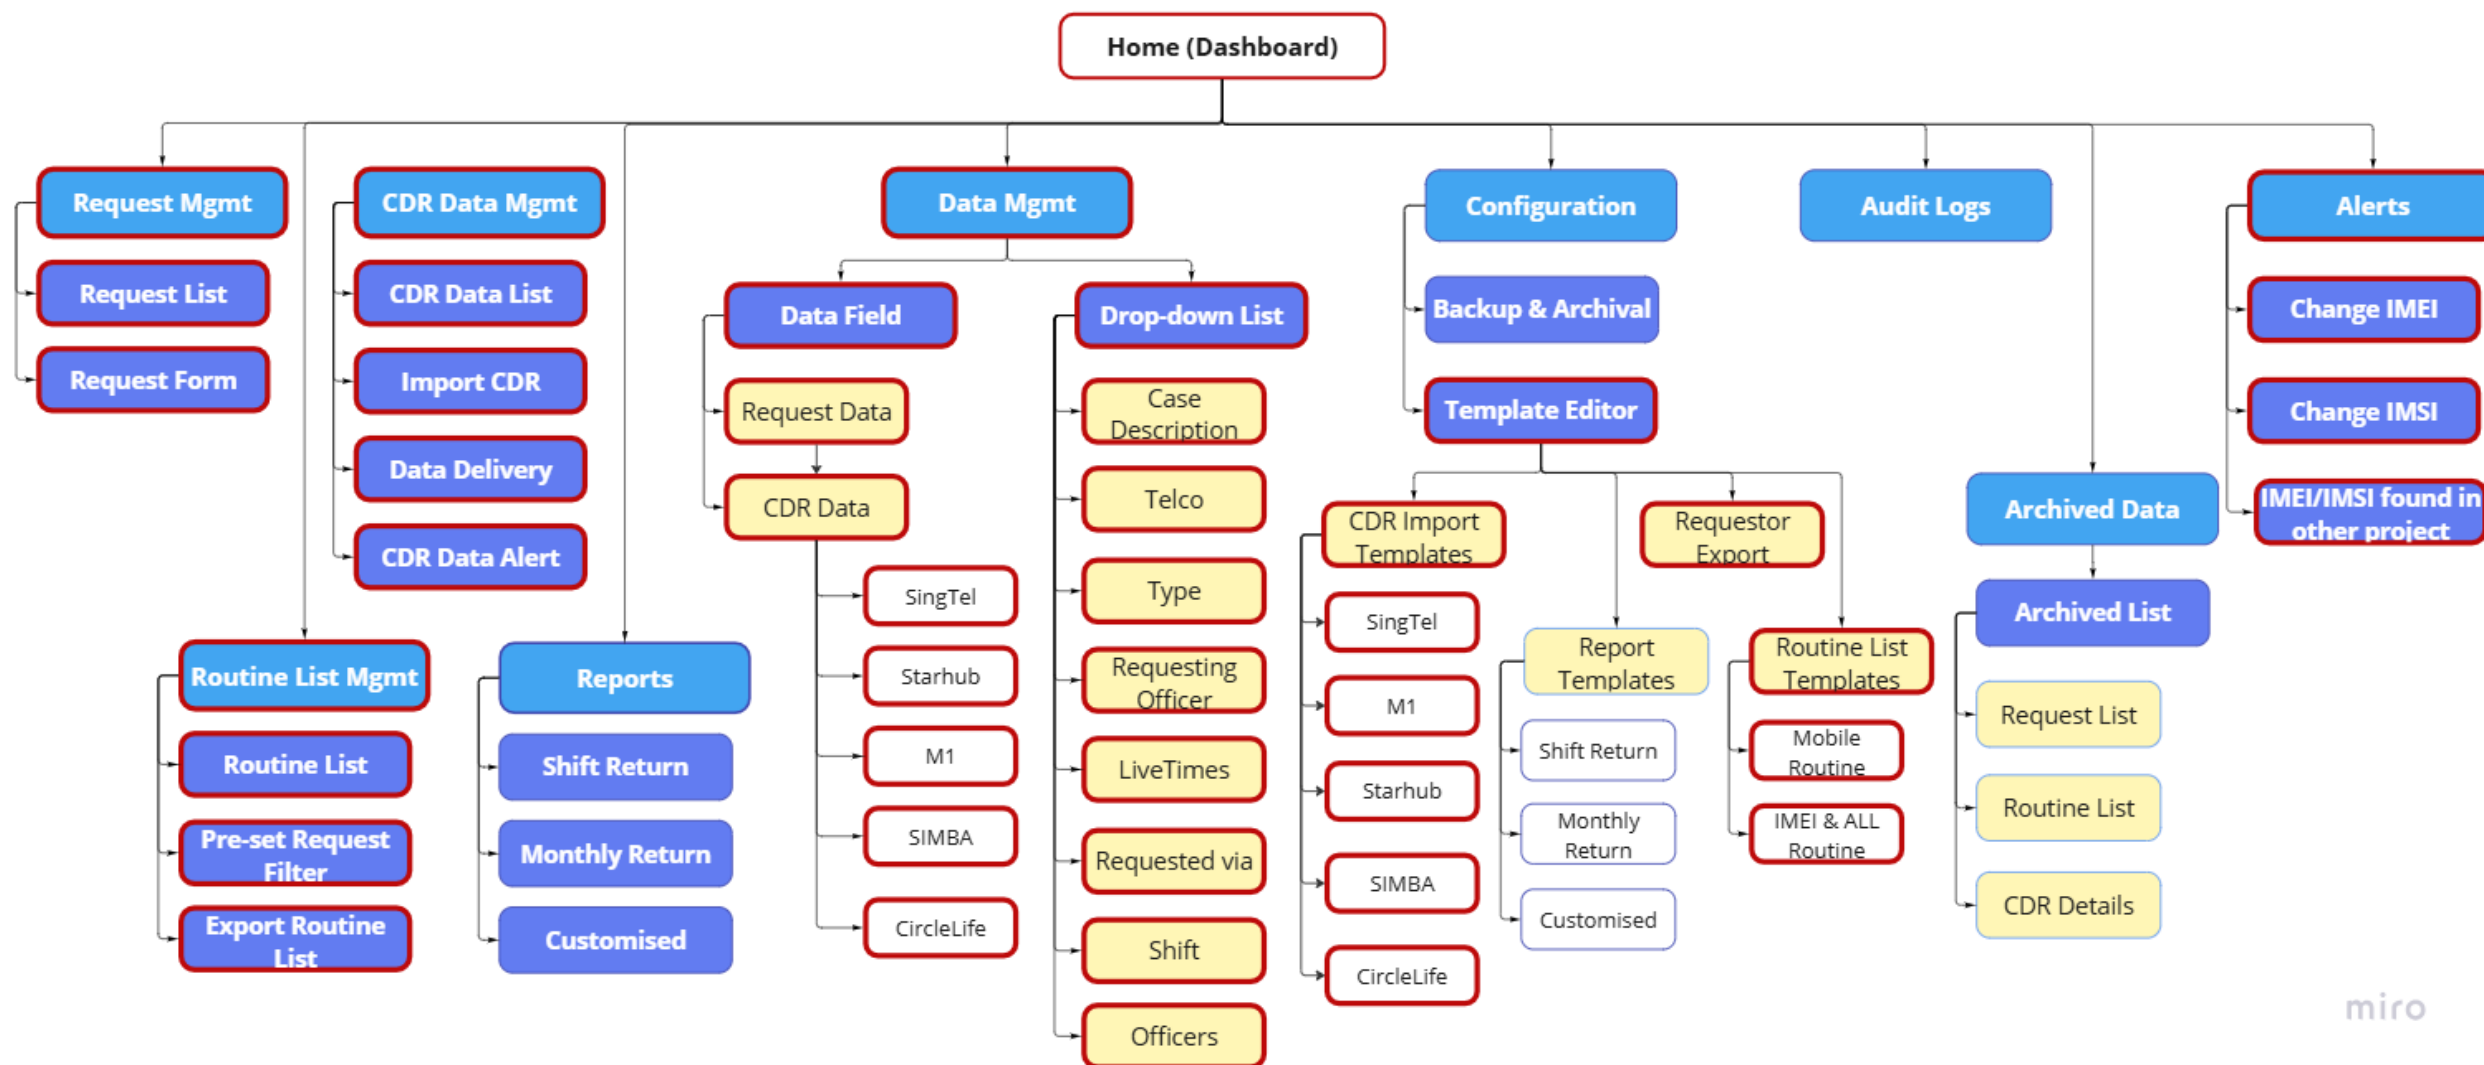

- Quality Management Plan
 - Coding Standard Guidelines
- Risk Management Plan
- Change Management Plan
- Problem Management Plan
- Configuration Management Plan
- Communication Management Plan
- Project Closure/Exit Management Plan

Urgent/Critical Tasks

- 17th September 2025 – Data mapping workshop with End User
 - **Peiru, Dr. Liu** – Lead the workshop session
- October 2025 – Software V&I 1 [15%]
 - Complete at least 75 – 80% of the UI design
 - Refer to the documents, minutes and slides for workflow and designs
 - **Rafiq** – Lead the UI design
 - **Eric and Jun Rong** – Assist to prototype the UI and workflow
- Agile Development Plan (by 15 September)
 - Use the User Story to plan the sprint and align with the project milestones;
 - Come out the Data Design***
 - **Eric** – Lead the development team

UI design to be completed by 1st V&I (red box)

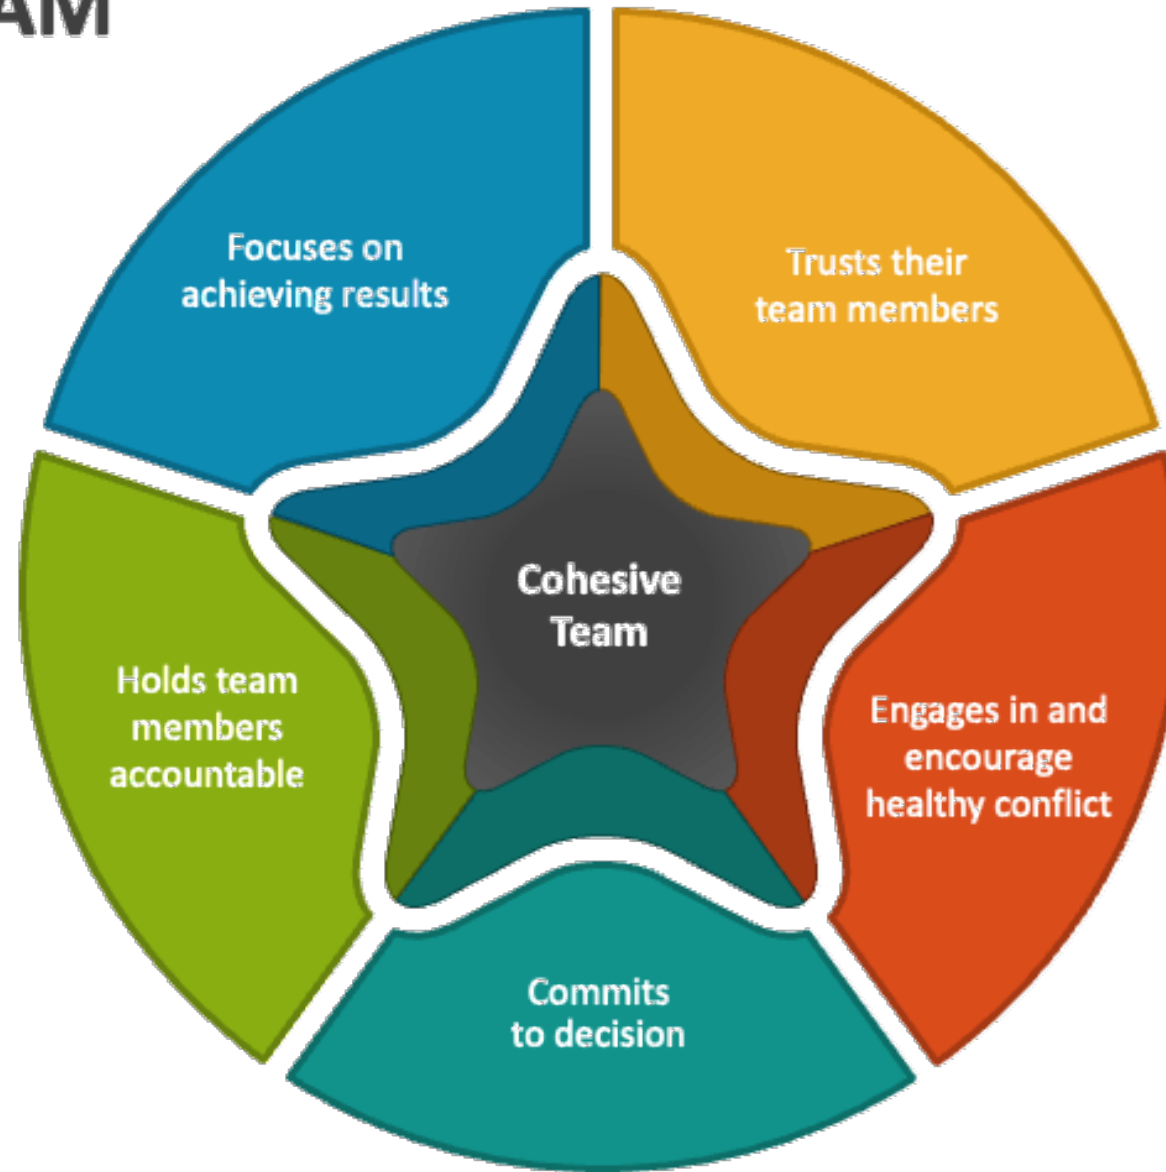

Building a Cohesive Team

COHESIVE TEAM

Thank you!
